#### HARRISON HAD WIFE, DAUGHTER IN CALIFORNIA

Funeral services over the remains of Edward Harrison, who was killed Tuesday morning at the Victor shaft as a result of picking into a missed hole, will take place tomorrow afternoon at 2:30 o'clock from the undertaking parlors.  
A wife was received last evening from Gus Carlson, who lives in New York, stating that deceased had a wife and daughter residing somewhere in California, and to ascertain their address and notify them of the death of the husband and father. There has been nothing found in the effects of deceased that give any clue to the whereabouts of the wife and daughter, and another message has been sent to the brother in the hope that he may throw some light on the matter.  
Charles Huber, deputy state mine inspector, requested yesterday afternoon that an inquest be held, and the inquisition was conducted by Justice Cuddy. The verdict was that Harrison came to his death as a result of an accident and that the cause could be attributed to his picking into a missed hole that he had himself drilled.

#### GIANTS GO DOWN TO DEFEAT BEFORE ARMY OF ASSEMBLED FANS

#### GEOLOGIST OF OPINION THAT OIL IS SURE

By A. B. Hall.  
The development of the several oil fields of the state has shown a marked improvement within the past 30 days, and the interest manifested by local as well as outside investors has grown in proportion. Several wells in the state are reaching depths where first production can be expected, and the showing from these deeper holes is gratifying.  
At Fallon the Syndicate company well is down 1754 feet, and it is reported that splendid indications for production are in evidence. This company has withdrawn all stock from the market except to present stockholders. The Latham company well is down 1555 feet, and last 50 feet in oil sand. It is reported that seepage showing from three to five barrels a day is being bailed from this well. The Pioneer, Diamond, Fallon Oil & Gas Extension, Fallon Union and several other companies are making good progress, and all report splendid oil indications.

#### MINING MAN VISITS FISH LAKE VALLEY

N. F. Kern, president of the hold-ings of the Louisiana Consolidated Mining company at Tonopah, after to Tonopah. Mr. Kern visited the well of the Fish Lake Merger Oil company yesterday, and upon his return was paid in his praise concerning the oil possibilities of that section.  
At Hlipah, White Pine county, two rigs are working. The Hlipah Petroleum company is now sinking its second well and has reached a depth of about 600 feet. At a depth of 476 feet a heavy pressure of wet gas was encountered with a considerable showing of high gravity oil. The Consolidated company well is down past 500 feet, and it is reported to have splendid indications. The Hlipah field was examined by Christian Vrang, a well-known geologist, some months ago and his report was considered favorable. He pronounced a part of the field as shallow territory and predicted commercial production. This field is being watched with much interest by the oil fraternity.  
The Fish Lake valley field is now receiving much attention, and some publicity. The Merger company has been drilling with a Standard rig since June, and has reached a depth of about 800 feet. A heavy seepage has been cut, and the management expects commercial production under 1000 feet. Other companies are preparing to begin operations here this year, and the Tonopah & Goldfield Railroad company has made all arrangements for the construction of a branch line into the valley from Coaldale.  
The Fish Lake field has been examined and reported on by such well known geologists as Fisher, Knox and White, and pronounced good. Their predictions that oil in commercial quantities will be found at depths of from 1600 to 3000 feet will no doubt be verified within the next few months.

(By Associated Press)  
NEW YORK, Oct. 6.—The weather was clear and less chilly than that which greeted the world-series fans yesterday. Many started for the Polo Grounds, early but the long waiting line was absent. It is not likely there will be any change in the batting order of the two teams. "We are on our way and won't be stopped," said Manager Higgins of the Yankees. "We are going to win. I feel confident of that," Manager McGraw of the Giants declared.  
Youngster Wayne Hoyt came over from his home in Brooklyn today to be smothered with goose eggs while the Yankees walked off the field with the second game of the world's series by a score of 3 to 0. The base running of the Yankees again was the feature. Mousie stealing home in the eighth before the us-tomished ace of John McGraw, manager of the Giants, while Babe Ruth, who has been missed in three of his four appearances at the plate, showed he could do something besides hit homers by stealing second and third bases in the fifth. "Soft" pitched a good game but has own error in the fourth and an error by Brown in the eighth was a hole in the Giant defense.
